

PLATINUM INDUSTRIES LTD.

Quality Policy

We, at Platinum Industries Ltd. are committed to become a leading manufacturer of high quality additives with sustainability and growth through innovations for overall benefit of society, environment and most importantly our customers.

Understanding the organizational context and considering the needs & expectations of the interested parties, we are also committed to fulfil all the applicable statutory and regulatory requirements related to additives manufacturing. We will continue to work towards achievement of quality objectives defined in our QMS.

This will be achieved by continual improvement in our quality management system through team work and dedicated efforts of all employees.
