

PLATINUM.

**A Globally Trusted
Manufacturer for High Performance
Specialty Additives**

THE SPARK TO SOLVE. THE SPARK TO SOLVE.
Pt.

Our Journey

2016

Acquisition of global technology for Calcium Zinc stabilizers, marking the beginning of our first CaZn manufacturing unit (17,000 TPY).

2019

Setting up of our state of the Art R&D Center at Palghar

2021

Introduction of Calcium Organic Based Stabilizers

2022

Manufacturing of PE waxes & Metallic Stearates with 30000 TPY

2024

Successfully became a **publicly listed** entity on both NSE & BSE on 5th March 2024, with an exceptional 100x oversubscription.

2025

Launched a High Tech fully automated manufacturing plant in Palghar, India.

2025

Successfully recognized by **DSIR** for our strong in-house R&D center

Our CPVC additives received **NSF 533** certification

2026

Introduction of Oleochemicals Derivatives

2017

Increased the capacity by 30% with the automation in powder technology

2020

Introduced low lead technology to the Indian market & also introduced booster technology

2022

Landacquired in Egypt for Plant facility for Global expansion

2023

Groundbreaking ceremony in **Egypt**

2024

Launched **Unipack** (CPVC Additives) with the capacity of 6000 TPY

2025

Innovation-driven manufacturing Facility at Suez Canal in Egypt by Q2 FY 2026

2026

Our Stearates received **REACH Compliant**

About Platinum

Since **2016**, we've been developing safer, high-quality, application-led, **calcium-zinc stabilizer systems**, manufactured in India, customised to your requirements. And now, we're expanding to new industries with our latest line of **Oleochemical Additives**

Our production capacity has grown exponentially in the last decade, and we became

India's first publicly listed PVC stabilizer manufacturer.

But what defines us is our commitment to technical rigor, consistent quality, and solving the specific challenges our customers face in processing and performance, driven by our philosophy of the "Spark to Solve."

We operate as a fully automated manufacturing plant in **Palghar, Mumbai**, and an International facility in **SEZ Cairo, Egypt**, expanding our ability to serve global markets. Our **NSF 533, ROHS, FDA, and TUV Nord, ISO 9001:2015** certifications ensure quality at every stage. **DSIR accreditation, Star Export House** recognition, and a **Government of India patent** reflect our focus on innovation grounded in real-world application needs.

When you work with Platinum, you're not just sourcing additives. You're partnering with a team that understands formulation complexity, values long-term reliability, and approaches every challenge with intent.

Vision

To be a globally respected name in the field of high-performance specialty additives, while pursuing scientific research to develop **sustainable** products for the future.

Core Values

Resilience: Our resilience helps us turn challenges into opportunities for improvement.
Respect: We believe humility & flexibility create mutual respect & value every contribution.
Growth Mindset: We continuously learn, adapt, & innovate to build a stronger future.
Relationships: Strong relationships are the foundation of our success & we nurture them at every step.

Product Portfolio

PVC

A. Lead-Based Stabilizers:

- Lead-Based Stabilizer
- Hybrid® Low Lead Stabilizer
- Booster Lead Stabilizer
- PVC Add Pack (Lead-Based)

B. Lead-Free Stabilizers:

- Highstab® Calcium Zinc Stabilizer
- Highstab® Calcium Organic Stabilizer
- PVC Add Pack (Lead-Free)

CPVC

- Unipack™ Compound
- Unipack™ Pipes&Fittings

Lubricants/Flowstar®

- PEWax
- OPE Wax
- Lubpack

Metal Soaps

- CalciumStearates
- Zinc Stearates
- Magnesium Stearates

Applications

PVC APPLICATIONS

Rigid Applications

- Profiles (Technical/Doors/Windows)
- Pipes (Agri/SWR/Plumbing/Foam Core)
- Foam boards
- Rigid films
- Floor tiles
- Roofing sheets
- OPVC pipes
- Mica sheets

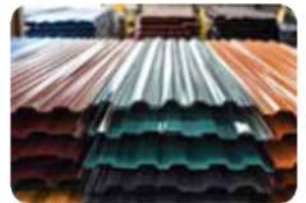

Flexible Applications

- Wires/cables
- Medical tubes
- Films and sheets
- Suction hose pipes
- Shoes sole
- Transparent oxygen masks

CPVC APPLICATIONS

- CPVC pipes
- CPVC fittings

Platinum Introducing OLEOCHEMICALS

THE SPARK TO SOLVE.
Pt.

Platinum provides a comprehensive range of high-quality **Oleochemical Additives** for polymer processing derived from natural, renewable raw materials.

Oleochemical additives designed to improve melt flow, reduce plate-out, and support consistent processing across rigid and flexible applications.

Pioneering Quality Through Science & Innovation

At Platinum, our **advanced R&D laboratories drive high-performance**, sustainable, & industry-leading solutions. We believe stabilizers should do more than just perform; they should align with your needs. That's why we invest in cutting-edge R&D, ensuring every solution is sustainable, safe, & tailored for long-term success.
